

Inspired by Professor Arnon Bentovim from Child and Family Training after hearing him present at a London conference last week.

CYCA team will now take a lead role in promoting emotional health and impact of trauma on the family, In partnership we will evaluate the effectiveness of the impact of children and their families.

The modules will encompass therapeutic interventions for those children who have been subject to victimisation in the home or community. Also, therapeutic interventions to reduce the harmful effects of ACE's.

Exciting times ahead!
